X. Read (1) Hiriyur Taluk Amildar's report No. 82, dated 30th July 1910, recommending that the construction of a gokatte at Pilali should be taken up this year.

(2) Government Proceedings No. R. 8361-71—Agri. 153-08-5, dated 10th April 1909, stating that since the construction of a gokatte at Pilali is a District Fund work, its cost should be met from that fund.

Resolution.—The Board are of opinion that though it is desirable to construct a gokatte at this place, the same cannot be undertaken during the current year, as no funds can be made available for this purpose. This work may be taken up next year, as the funds sanctioned this year under the head "B. Public Works to be executed by the Civil Department" are absolutely required for more urgent works.

XI. Read yadi No. 140, dated 21st July 1910, from the Assistant Commissioner, Chitaldrug Sub-Division, regarding the exclusion of the Myasarahatti from Chikkondanahalli Union.

Resolution.—The Board concurring with the opinion of the Taluk Board, has resolved that Myasarahatti should not be excluded from the Union as the amount of tax paid by them is very small and further the condition of Myasarahatti will improve by effecting sanitary improvements.

Resolution.—The Board resolved that a sum of Rs. 4 per mensem be sanctioned for entertaining the sweepers, as it is very desirable that this establishment should be entertained to keep the place clean and tidy.

XIII. Read Hiriyur Taluk Amildar's report No. 50, dated 10th August 1910, recommending that the rest-house and well proposed to be constructed at Hiriyabbe may be built at Dharampur.

Resolution.—The Board resolved that the rest-house and well, be constructed at Dharampur, which is the hobli headquarters and which is 9 miles from the weekly sante at Amarapur, as there is no accommodation of any kind in this place. Hiriyur is 22 miles from Dharampura and 15 miles from Hiriyabbe. As the Public Works Department has constructed a lodge recently in the 7th mile between Hiriyur and Hiriyabbe, it is desirable that these should be shifted to Dharampur for the convenience of the public.

XIV. Read Hiriyur Taluk Amildar's report No. 74, dated 23rd July 1910, submitting an estimate for Rs. 1,100 for constructing a gokatte at Maradihalli, as great difficulty is at present experienced for water for men and cattle.

Resolution.—Though it is necessary that a gokatte should be constructed at this place, it is not possible to meet the whole cost from District Funds. If the villagers do the whole of earthwork required to the gokatte, which will amount to about Rs. 400, the masonry and other works which require an outlay of Rs. 800 may be undertaken from the District Funds.

XV. Read list of incomplete works of previous year, requiring appropriation for their completion during the current year.

Resolution.—Resolved that the same be submitted to Government for sanction with a request that the total sum of about Rs. 3,000 required for completing the works, may be met from the provision sanctioned for incomplete works and repairs during the current year.

XVI. Read list of works proposed to be undertaken during the current year, received from the several Amildars.

Resolution.—Resolved that some of the works sanctioned in the current year's budget being unnecessary, the works as per approved list be carried out as they are urgent and necessary, in modification of the sanctioned works ; and that Government be requested to accord sanction to the same.

XVII. Read Government Proceedings No. 1389-9—San. 199-09-4, dated 10th August 1910, calling for the opinion of the District Board regarding the employment of retainers on small monthly pay to help the Health Officers when they visit villages, or the entertainment of a permanent staff of three mestris and fifteen men in connection with the prevention of epidemic diseases.

Resolution.—The Board are of opinion that the idea of having trained men is a commendable one. Instead of employing retainers on small monthly pay or a permanent staff, the Board consider that the local men such as patels, talavars and others be trained by the Sanitary Officer. These men, if trained, will be very useful in times of necessity as they will always remain in the place. They may be given small sums as reward on occasions when their services are utilized. The practice now in vogue is for the patel to give intimation to the Amildar and the Police Inspector as soon as an epidemic breaks out in his village. This he invariably does. If he fails to do so, he is punished. The Amildar at once communicates information to the Hospital Assistant, and both repair to the spot and do the needful. If the Hospital Assistant alone goes in the first instance without a Revenue or Police officer, it is not likely his instructions will be carried out by the villagers.

XVIII. Read list of works sanctioned by the President in anticipation of the Board's approval till the end of June 1910.

Resolution.—Approved.

XIX. Read and recorded.

(1) Government Proceedings No. 663-71—L. B. 281-09-11, dated 21st July 1910, directing that the existing practice as regards the correspondence of the District Boards requires no change.

(2) Government Proceedings No. 675-85—San. 192-07-13, dated 21st July 1910, sanctioning the use of kerosene oil emulsion for the disinfection of plague-infected houses.

(3) Government Proceedings No, 1327-33—Med. 221-09-2, dated 8th August 1910, sanctioning the entertainment of a midwife at Malebennur temporarily till the end of the current year.

XX. Resolved that the next meeting of the Board be held on the 24th September 1910.
